Forecast for Saturday 11 Nov 2023

Weather: The odd shower possible overnight, these wintry over the summits, but mainly dry with some clear spells leading to a frost and patchy mist and fog in the glens by dawn. Dry and mostly sunny during daylight hours, any mist and fog in the glens clearing by midday. Clear skies in the evening with a widespread frost developing and some freezing fog patches in the glens.

Chance of cloud-free hill tops above 800m: 90% or more.

Low Cloud and visibility: Mist and fog patches possible in the glens, otherwise no significant cloud. Visibility mostly good or very good, except in any mist and fog.

Met Office Aberdeen Meteorologist's View

A lovely Autumnal day.

Forecast for Sunday 12 Nov 2023

Weather: Clear skies with a widespread frost overnight and some freezing fog patches in the glens. Any freezing fog slow to clear, otherwise dry and bright for much of the day with some sunshine. Cloud thickening and lowering in the evening with some patchy rain and summit snow possible. Southeasterly winds also strengthening.

Maximum wind: East or Southeast 10 to 15mph increasing 25mph gusting 35mph by evening.

Chance of cloud-free hill tops above 800m: 90% falling 30% during the evening.

Low Cloud and visibility: Nil significant low for much of the day, but becoming extensive, base 600 to 900m through the evening. Visibility mostly good or very good, except in any mist and freezing fog. Becoming moderate to very poor through the evening.

Temperature: **Glens:** Minus 4 Celsius rising to plus 4 Celsius
At 800m: Zero to Minus 3 Celsius
Freezing level: Most levels, rising to 800m late in the day.
